

RIGHT LIVING

Which Many People Believe Should be the Fourth "R" in Education

The following epigrams, by Ellen H. Richards, deserve the consideration of all those who are anxious to get the most out of life.

Live to accomplish something—not merely to exist.

To live means to eat, to work, to sleep, to be amused, and refreshed after work.

Eat for satisfying the legitimate hunger of the body calls—not only to please the palate.

Sleep for restoration of energy—see to it that such is the result.

Exercise is as essential as sleep—learn what and how much slakes out the dead ashes from the living coals.

Life processes go on best unwatched. "All the world's a stage"—enjoy the play.

Live for a worthy purpose—some incentive, some goal to reach keeps the traveler on the safe road.

Adapt to the environment, control surroundings as far as possible to the great end—effective life.

Educate the young from the first to value life and health, to find happiness in right living.

Above all, believe that it pays to know the truth and follow it.

feers for the year: President, Earl Leubard; vice president, Eugene Beagles, secretary, Chloé Scott; treasurer, Martha Bowell.

Here's a complete list of the most honorable and dignified officers of the Freshman class: President, C. Thompson; vice president, Bertie Tomlinson; secretary, Grace Milner; treasurer, Lloyd Kizot.

During this week and next the regular monthly tests will be given. Oh, you report cards!

There has been very little "bazing" or "initiating" of Freshmen this year. It seems to have almost died out in the schools. Still, not to mention any names, we learn that one Freshie proved most entertaining to several upper classmen the other night.

The Juniors, following the example set last year, have placed the order or their class pins which will be here in a week or two.

Sophomore English students are studying Goldsmith.

A number of new rules introduced into the school are proving very distasteful to the high school students, so it is said. But let us all cheer up and make the best of it anyway.

The Senior class has decided to give some form of entertainment this year, but just what it will be has not yet been definitely decided.

The following committee has been appointed to look after the affair: Schuyler Nolan, Chairman, Roland Metker, Erna Humrichouser, Olga Tomlinson and Erna Cressner.

WANT GOOD MEN FOR RANGERS U. S. FORESTS

GOVERNMENT SETS DATES FOR EXAMINATION OF THOSE WHO WANT A ROUGH AND READY LIFE

CONDITIONS REQUIRED

Chance for Young Men Looking for a Vocation Demanding Courage and Adventure in the West

Washington, D. C., October 2.—The Civil Service Commission will hold an examination for Assistant Forest Ranger on October 23-24, 1911. The U. S. Department of Agriculture estimates that 400 eligibles will be needed during the field season of 1912. Assistant Forest Rangers are paid an entrance salary of \$1,100 per annum.

The examination will be held at National Forest headquarters in Alaska, Arizona, Arkansas, California, Colorado, Florida, Idaho, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, Oklahoma, Oregon, South Dakota, Utah, Washington, and Wyoming. No examination will be held in Michigan.

The law requires that, when practicable, Forest Rangers must be qualified citizens of the state or territory in which the National Forest is situated. Since the list of local eligibles must be exhausted before eligibles residing in other states can be appointed, the chance of citizens of outside states who go to the National Forest States and take the examination to secure an appointment is small.

The requirements and duties of Forest Rangers are thus described in "The Use Book," which contains the regulations and instructions for the use of the National Forests:

"A ranger of any grade must be thoroughly sound and able-bodied, capable of enduring hardships and performing severe labor under trying conditions. He must be able to take care of himself and his horses in regions remote from settlement and supplies. He must know something of land surveying, estimating and scaling timber, logging, land laws, mining and the livestock business.

"On some Forests the ranger must be a specialist in one or more of these lines of work. Thorough familiarity with the region in which he seeks employment, including its geography and its forest and industrial conditions, is usually demanded, although lack of this may be supplied by experience in similar regions.

"The examination of applicants is along the practical lines indicated above, and actual demonstration, by performance, is required. Invalids seeking light out-of-door employment need not apply. Experience, not book education, is sought, although ability to make simple maps and write intelligent reports ordinary Forest business is essential.

"For duty in some parts of Arizona and New Mexico the ranger must know enough Spanish to conduct Forest business with Mexicans. "Where saddle horses or pack horses are necessary in the performance of their duty, rangers are required to own and maintain them. The Forest Service furnishes no personal or horse equipment.

"Rangers execute the work of the National Forests under the direction of Supervisors. Their duties include patrol to prevent fire and trespass, estimating, surveying, and making timber, the supervision of cuttings and similar work. They issue minor permits, build cabins and trails, oversee grazing business, investigate claims, report on applications, and report upon and arrest for violation of Forest laws and regulations.

The examination will consist of questions regarding the use of the Forest, supplemented by a field test to show the applicant's fitness to do the actual work of a ranger. Education and experience will be rated on the answers to the questions on these subjects in the application form and on the applicant's use of English in the written test. Questions for the tests in riding and packing will be provided by the Forest Service.

The examination is under the control of the Civil Service Commission, and not of the Forest Service. Information in detail regarding it, including the names of the places at which it will be held, will be sent to anyone applying to the United States Civil Service Commission, Washington, D. C.

MARRIAGES

Walter-Walz.

Miss Carrie Walz of this vicinity and Marion Walter of Laporte were married Sat. Sept. 30.—Barber Cor.

Gottschalk-Miller.

Mr. Archie Gottschalk and Miss Louise Miller were united in marriage Wednesday afternoon, Sept. 27 by Rev. J. C. Smith. They are worthy and esteemed young people, who will receive the sincere congratulations of many friends and acquaintances.

Hartman-Hill.

At the Methodist parsonage Sunday evening at six o'clock, Rev. F. O. Fraley united in marriage Mr. John B. Hartman, son of Mr. and Mrs. D. O. Hartman, and Miss Edna A. Hill, daughter of Mr. and Mrs. Wm. H. Hill. Both young people and their families live north of Plymouth a few miles. A few of the young friends of the couple accompanied them and were witnesses to the ceremony. Mr. and Mrs. Hartman will reside in the north part of Plymouth, where a residence is now being made ready for them. A host of friends wish them a happy life.

BIRTHS.

A ten pound son was born Wednesday, Sept. 27, to Mr. and Mrs. M. L. Hinchhouse of Hibbard.

An eight pound daughter arrived Friday night, Sept. 29, at the home of Mr. and Mrs. Noble McCrory at Indiana Harbor, according to a telegram received today by Grandpa F. H. McCrory. Mrs. McCrory was formerly Miss Bessie Bender of this city.

Circuit Court.

Laura Galloway was given a divorce from Chas. Galloway. He is to pay \$2 a week for the support of the two children.

Ellen Restorick, 69 years old was divorced from Samuel J. Restorick.

Marriage Licenses.

Edna D. Hill to John B. Hartman, both of Marshall Co.

Marion Lee Walter of Laporte to Carrie M. Walz of Marshall county.

Louise Miller to Archie Gottschalk both of Marshall county.

Sylvia Lemert to Floyd E. McCullough, both of Teyden.

Edith Jones to Leo Burwell, both of Bourbon.

Reuben V. Swihart of Ft. Wayne to Bonnie H. Hardesty of Tippecanoe.

WILL OPERATE BIG STORE IN CHICAGO SOON

JESS ALLMAN HAS ARRANGED TO START MAMMOTH RETAIL BUSINESS IN CROWDED BUSINESS SECTION.

BUILDING IS RENTED

Well Known Young Plymouth Merchant To Operate Establishment In Competition With Largest Concerns.

Jess Allman, who is now in Plymouth closing out the stock of goods of the Boston Store, has arranged to mark a sale in the retail business on a large scale in Chicago in one of the most crowded sections of that city. The building has been rented, and all other arrangements are rapidly being made for the opening of the big store.

The location of the building is at the intersection of Larrabee and Jaybourne streets. These streets come together to make a "flat iron" point and on this the building stands, three stories high. Past this place perhaps fifty thousand people pass daily, making a most favorable business location.

At first Mr. Allman will occupy only the first floor, which, however, will hold a mammoth stock. He has the privilege of all three floors whenever he wishes them. It is his purpose to expand the business as rapidly as possible until it occupies all the building and is one of the biggest stores in the great city.

Mr. Allman will continue his business at Park Falls, Wis., since it is a very desirable one. He has had large experience in the retail business, both in Plymouth and in Wisconsin, and by his natural ability as a merchant is eminently fitted to become one of the big retailers of Chicago. That he will be successful in his big venture is both the belief and wish of all Plymouth, which has known him for so many years and is interested in his welfare.

FLORIDA LAND SELLING RAPIDLY

C. D. Boring Is Interesting Many Marshall County Farmers

A few weeks ago there appeared in this paper an ad regarding the sale of Florida land by Mr. C. D. Boring, who has been here for some time and who has sold considerable of this land to Marshall county men. The ad also contained the exact reproduction of several letters signed by citizens of this county and pertained principally to the fact that the men who purchased were more than pleased with their purchase and also of how well they were pleased with the country.

A little later, or about Sept. 19 there appeared an article in regard to another group of men of this county who had gone to this particular section of Florida and a short time afterward an article appeared stating that these men had returned and said that the country was much better than they had expected to see. The article also stated that they had all made a purchase and they were more than satisfied with it. We did not take Mr. Boring's word for this statement alone as he was not in the city so we could ask him, instead we got the article from one of the men who had gone on the trip and had made a purchase.

In our conversation with these men they not only spoke of the land which they purchased but the surrounding country as well, and also of the fruit grown, etc. They also related about the enormous fruit packing houses that were located at the county seat Arcadia and at Limestone as well near where the land in question lays.

Twelve men in this county have gone on the trip and made a purchase and there have been some who went just for the trip owing to the fact that the fare is so cheap.

The last group of men who took the trip speak of the country and their purchases as follows:

My trip to Florida was a surprise to me. I had it pictured in my mind as an unpleasant place to live in many ways. I thought the flies would be bad, and mosquitos and swamps and sand hills, but found it altogether different. Fine climate, grape fruit and orange groves and the land around Arcadia and Limestone lies very nice, and the soil is of black sand with a clay subsoil. The climate is certainly fine. I liked everything so well that I bought 40 acres of the land and am proud of the patch in Coda county, Florida.

Wm. Beesler.

Plymouth, Ind., Sept. 19, 1911.

Mr. C. D. Boring.

Plymouth, Ind.

Dear Sir: When I made my trip with you to Florida I did not go with the intention of buying land, but after looking over your land at Limestone, near Arcadia, as well as the orange, grape fruit groves and trees in lands near and joining your place I bought 40 acres from you and would gladly recommend it to any one that wants to buy.

P. S.—I expect to go back to my land in the near future.

J. W. Lawrence.

In company with Mr. C. D. Boring I visited Limestone, Florida, on August 19 last. Found it to be a thriving town of 400 inhabitants.

The land which I purchased from Mr. Boring adjoins Limestone on the west. The soil is a black sand with clay sub-soil, formerly covered with heavy pine and at present covered with palmetto. Saw splendid groves loaded with oranges and grape fruit adjoining this land which grew upon the same kind of soil. I am

Most respectfully yours,

Plymouth, Ind. Milo A. Hatt.

October 3, 1911.

La Paz, Ind., October 3, 1911.

Mr. C. D. Boring.

Plymouth, Ind.

Dear Sir: Your request for a letter concerning my trip to your land near Arcadia, Florida. Must say that it was so much better than represented to me that I purchased 40 acres.

The most striking feature of my trip was my conversation with Mr. Rawerson whose groves we visited, which is within one-half mile of your land. His groves consist of oranges and grape fruit; he has 7½ acres of grape fruit. He spoke of the big crops and he informed us that it was no great effort. We then asked him how much he intended to realize from this 7½ acres. He said not less than \$4,000 or \$5,000, which looked very large to us. He then said that one could not expect to come there and reap a crop without work as one must work there in any other place.

Now when I tell you of this land I do not mean to say that the whole state of Florida is good land for I have not seen the one-half part of it but in this section I believe that it is as good a land for citrus fruit and vegetables as can be found.

Some people have an idea that the whole state of Florida is all sand from top to bottom with unknown depth, but must tell you that I have a sample of the subsoil 2½ feet deep which after being dried is as hard as any of our subsoil.

As for climate I do not believe it can be beat anywhere in our country. It is not so hot in summer nor is it cold in winter. Having asked the settlers there about the weather in general, they all told us it was better than usual. The temperature was 90 degrees. I am sure I can stand the summer there if I can here in Indiana. The average there is 88 with an extreme of 92.

In closing must say if any one is seeking a small home with good climate, good water, good soil or a home to avoid the cold winters we have here, to go to this place and see for yourself and become satisfied.

Yours respectfully,

John W. Hildebrand.

P. S.—I forgot to speak of one thing—the rainfall. It is greater than in Northern Indiana, so shown by statistics.

Impression of Florida.

At the request of many friends I have been asked to give my impression of Florida.

It is but putting it mildly to say that Florida is the land of promise.

Some may say Florida is too hot, but the records show that at no time the past summer has the mercury registered above 94 degrees in the shade.

Arcadia is the county seat of DeSota county and is about 30 miles from the Gulf of Mexico (as the crow flies) but 52 miles by rail.

The land is a sand loam underlaid in most parts with a sort of clay subsoil. By examination of the surrounding country we were convinced that such a soil is an ideal soil for fruit, there being several groves of oranges and grape fruit at intervals some two or three miles distant, one of which we especially inspected.

There being five acres of grape fruit which, with prevailing prices is valued at eight hundred dollars per acre for the crop alone.

The orange groves were well laden and bids fair to amply remunerate the operator for his labor and net him a tidy sum. Besides this climate is an ideal one for oranges, lemons, grape fruit, guava, kumquat, pineapple and vegetables such as celery, Bermuda onions, string beans and garden truck in general. Rare land of this type can be purchased around limestone for \$25 to \$35 per acre. While I am informed that the same quality of land around Winter Haven some thirty miles to the north in Polk county is bringing \$43 per acre.

Of course Florida has its drawbacks its no use to say they have everything in Florida, but to consider all things it surely is a land of promise and those promises are sure to be fulfilled in the near future.

Charles A. Gonter.

Another group have arranged to go and the date is set Oct. 17. They will leave Lakeville, Lapaz, Plymouth and Culver and all who wish to go are invited to join them. The fare will be between \$33 and \$34, the ticket good for 25 days. For further information inquire of C. D. Boring, Lapaz.

WILL DEDICATE NEW CHURCH NEXT SUNDAY

ST. MICHAEL'S CONGREGATION LOOKING FORWARD TO A GREAT DAY IN THEIR HISTORY

WORKMEN HURRYING

It will Require Night and Day Work to Complete Building in Time for Sunday's Ceremonies

Next Sunday will be a great day in the history of St. Michael's Catholic church in Plymouth. On that day the new church will be dedicated. October 8 was the only day Rev. Fr. Tremmel could secure Bishop Joseph Alerding, and although he was aware that it would hurry the workmen to finish the building by that time, it was the only course left open to him. There is much yet to be done to get ready for Sunday's ceremonies. Workmen are at it night and day all this week, and if everything goes well, they will get through by Saturday night.

Much work yet remains to be done on the altar, which is in white with gold trimmings, and on the floor, much of which is to be laid in tile. The cement work and grading on the outside will be completed nicely, and is practically done now. The building is an imposing one and will be a credit to the city. The congregation may well be proud of their structure. Its splendid equipment and appointments are pay for the sacrifices made to build it.

Program for Sunday

7:30 a. m., Low Mass

10:30 a. m., Dedication of church by Rt. Rev. Bishop Alerding of Fort Wayne. Solemn high mass and sermon by Rev. John A. Cavanaugh, C. S. C., President of Notre Dame University.

Dinner served by the ladies of the parish from 11 a. m. to 2 p. m. Supper from 5 to 7 p. m.

2:00 p. m., Parade of visiting societies and members of the congregation, headed by bands. The marshals of the day are to be Anthony Jetter, sr. and Peter J. Krueyer.

7:30 p. m., Confirmation and address by the Rt. Rev. Bishop.

The following committees have been at work on the many duties incident to an event of this kind:

Program—J. A. Hanes, C. P. Holloway, James Langdon, Edward Ferguson, A. Keller, B. B. Scheetz, A. J. Fall, Bert Bushman.

Transportation—J. E. Hanes, P. J. Richard, Thomas Stack, C. P. Holloway.

Entertainment—P. A. Ball, Conroy Eley, Michael Ryan, W. G. Hendricks, A. C. Richard, Peter Bergman.

Invocation—J. E. Bergman, Peter F. Finner, J. A. Ball, George Nazel, C. Bergman, Clas Hiss, A. Metter, F. Huba, Peter Stegman.

Reception—A. C. Richard, C. McEwen, E. Bergman, Wm. Hitchcock, B. Bushman, M. Jeffers, J. W. Bergman, Joseph Holzhauser, J. Bergman.

L. Durbin, F. Boliner, T. O'Keefe, J. P. Sullivan, E. Bagley, Alphonses Ball, Michael Ryan, A. Wade, Wm. Rober, Joseph Huba, J. V. Keiper, P. Sester, L. Wickey, B. B. Scheetz, Meals—John Richard, R. H. Miller, John Boliner, Frank Hager, Chas. Scheetz, J. V. Keiper.

Building Committee—John E. Ferguson, Prosper A. Ball, James E. Hanes, Peter Richard, Michael Ryan, Joseph Holzhauser, Peter Jeffers, Peter J. Krueyer.

Architects—Gault & Gault, Terre Haute, Ind.

Contractors—O'Keefe & Co., Plymouth, Ind.

Interior Carpenters and Joiners—Neiditz & Vaner, Bourbon, Ind.

Plasterers—Coar & Lolemaugh, Etna Green, Ind.

Ornamental Plasterers—Architectural Decorating Co., Chicago, Ill.

Frescoes—G. Gioseio, Indianapolis, Ind.

Art Glass—The Munich Studio Co., Chicago, Ill.

Altars—E. Hackner Co., LaCrosse, Wis.

Pews—Lansberg & Maeke, Louisville, Ky.

Heating and Plumbing—Chas. J. Eich, Plymouth, Ind.

800 WILL COME.

South Bend, Laporte and Walkerton Knights of Columbus to Plymouth Sunday.

The South Bend local council Knights of Columbus has received word that members of the Laporte council will join the South Bend delegation Sunday, leaving on the special train over the Lake Shore for Plymouth, where the new St. Michael's church will be dedicated. The train will also be augmented by residents of Walkerton. A crowd of 800 is looked for to attend the ceremony from that vicinity.

Practically all arrangements for the trip to the Marshall county seat have been completed. The train will leave Michawaka at 8:45 and South Bend at 9 a. m. and returning will start at 6:00 p. m.

HIGH SCHOOL NOTES

At a meeting held Thursday the Senior class elected the following persons as members of the Annual Board whose duty is to get out a "Senior Annual," representative of the work of the entire school but especially of the graduating class in whose honor this book is published:

Roland Metker, editor-in-chief; Linnelle Schrock and Schuyler Nolan, business managers; and Prof. O. E. McDowell, chairman of the board. This board is made up of the above mentioned together with the president and editor of each class.

Practice games between the various class basketball teams are being played every day now and are proving to be a great success. In two or three weeks Coach Honor W. Dutter will pick out twelve men for the first and second high school teams. The class athletes are in charge of the following managers: Senior, Schuyler Nolan; Junior, K. Riehter; Sophomore, Ray Lemert; Freshman, Philip Long.

Prof. Harris' smiling face was missing from these halls of learning last Friday. The cause was the arrival of a bright little daughter at his home.

The Junior English classes are reading Poe's Poems and Tales.

The long awaited laboratory manuals are now here as well as the delightful (?) history note books.

Miss McGuire has resurrected her light opera, "The Captain of Plymouth," and is recasting the play. She hopes to be able to present it sometime before Christmas.

The Freshmen are interested in the story of Scott's Marston.

The Sophomores met one day last week and elected the following officers:

NEW BRIDGE TO BE BUILT IN PLYMOUTH

STRUCTURE OVER BROWNLEE CROSSING WILL BE MADE BY ROCHESTER COMPANY THIS FALL

WORK OF COMMISSIONERS

Contracts Made for County Farm Supplies and Requisitions for Office Stationery—Other Business

The county commissioners met Monday, Tuesday and Wednesday for their October session. Probably the most interesting business transacted, to the citizens of Plymouth, was the granting of the contracts for the Brownlee bridge, on Pierce street. The contract for the abutments being granted to the VanSkyhawk and Knoblock Company for \$850.00, the super-structure being given to the Rochester Bridge Company for \$4,400.00. The discussion between the commissioners and the city council concerning the kind of floor to be constructed ended by the commissioners letting the contract for an ordinary plank floor, and giving the city the right to a kreodone floor by paying the cost of it over and above the cost of the plank. It has not yet been decided by the council what will be done, but this will probably come up at the next meeting.

The commissioners also awarded the contracts for supplies for the County Farm for the coming year. Woodbury getting the contract for the rooster's and tobacco, Ball & Co. for dry goods, boots and shoes; Buck for hardware, and M. S. Lowenstein of Bremen for clothing.

By a petition of Flora Bishop a road in Union township was closed. The specifications for supplies for the various offices at the court house were approved, and are to be purchased in December. Also the reports on the four trustees were approved.

James M. Shaffer filed a petition for a ditch in Tippecanoe township affecting lands of Joseph Yantiss and Wm. L. Yantiss in addition to those of his own. The drain was referred to the county surveyor under the three mile act.

The vacation of road in Union township petitioned for by Flora Bishop was ordered.

The petition of Wm. F. Whitesell to file a public drain was referred to the county surveyor for report.

An order was given the sheriff to remove the dam which had been made by Schultz & Son to allow their dredge to float, so that the building on the Brownlee bridge can be begun.

The commissioners are today looking at the Varier Arch.

Advised List.

F. B. Leek.

J. S. Kemp.

J. M. Hooker.

Mrs. F. Rerf.

Mrs. Ada Dinkmeyer.
